

GEMCO VALVE

T Heavy Duty Valve

The original Spherical Disc Valve has a long legacy of heavy duty applications including handling sand and gravels, metal powder, ceramics and other challenging bulk solids.

Applications:

- Tank charging and discharging
- Ribbon/Paddle Blenders
- Bag Dump Stations
- Bulk Bag Unloaders
- Weighing Systems Metering Valve

The Type T Valve is designed for heavy-duty service. It is typically used for slurries, abrasives, and heavy density materials. The T valve is available in cast stainless steel, cast iron as standard and can be fabricated from any weldable alloy with the full range of sanitary finishes. Options include high temperature or pressure (3 bar) designs, clean in place spray balls or nozzles and custom adapters or mountings.
